

Project Profile

Abilene Christian University - Brown Library
Abilene, TX

System Features

The Brown Library located in the Adams Center seeks to develop, maintain and provide access to a collection of materials in all formats, including print, electronic and audio-visual.

- The library encourages innovation in technology with a 40" touchscreen display that allows its users to operate custom designed, interactive technology to search for faculty, staff, events and locations on campus with a directory and visual pathfinder
- The facility also includes multiple 47" 1080P LCD displays in video wall configuration in the main lobby
