

Project Profile

BG Group Place
Houston, TX

System Features

The BG Group was moving its North American headquarters into 10+ floors of a brand new building downtown and needed AV systems in more than 140 rooms including lobbies, hallways, the trade floor, and conference rooms.

- Multiple rooms on all floors have videoconferencing capabilities and areas with digital signage that allow the company to communicate important messages
- Video walls help to tell the BG Group story to visitors in reception areas as well as a video wall on the "BG Advance floor" that has the ability to create an "always-on" HD connection to the group in the UK and acts as a videoconferencing facility for large group meetings
- The trade floor includes monitors that allow the traders to constantly observe markets, weather, news, as well as the ability to watch "Ship Net" to track LNG tankers in real-time
