

## Project Profile

Chesapeake Energy Arena  
Oklahoma City, OK

### System Features

Home of Oklahoma City's NBA team, the Chesapeake Energy Arena houses modern AV equipment in major areas of the facility including main halls, entrances and club areas.

- Twenty double-sided video displays with three monitors per side hang from the ceiling and surround the first floor concourse
- The arena houses multiple video walls and more than 160 LCD panels with independent control
- An 18-foot wide curved screen with dual projectors and a 27-foot diameter video cylinder with 360° seamless projection
- A digital signage management system allows officials to generate content for all displays as well as the ability to manage, schedule and track content distributed
