

Project Profile

CityCenter Las Vegas - Mandarin Oriental Hotel and Residences
Las Vegas, NV

System Features

The 1,082,760 square-foot Mandarin Oriental Hotel is prominently sited within the City-Center development, directly fronting Las Vegas Boulevard and the Avenue. This unique project features the most up-to-date AV technology.

- Boardrooms and meeting rooms include audio, specialty lighting, videoconferencing, 65" displays and touchpanel control
- Several suites have internal racks, distributed audio, touchpanel control systems, iPod docks, IPTV, and TVs in the bathroom mirrors with local audio
- Private spa areas have docking stations for iPod music and control as well as "Experience Showers" that change music, lights, water pressure, and aromas based on a guest's mood selection
