

Project Profile

John Brown University - Bill George Arena
Siloam Springs, AR

System Features

Stemming from the Keeping Faith Campaign at the university, the 38,000-square-foot, multipurpose arena offers the latest AV systems for athletic events, commencement, and other university gatherings.

- The sound system includes a 32-Channel digital console, wireless microphones, an in-ear personal monitor system, and front fill speakers
- The arena's video production system includes HD remote operated cameras, HD video switcher, HD recorder as well as a production intercom system
- The video projection system integrates 6,000 ANSI-lumen projectors on 184" motorized screens, computer input panels, a scaler, Blu-Ray player, LCD confidence monitor, and multiple control touchpanels
