

Project Profile

Louisiana State Capitol
Baton Rouge, LA

System Features

Dedicated in 1932, this historical, 34-story building is the tallest capitol in the United States and contains the newest AV equipment.

- The House and Senate committee rooms received video upgrades, which include 103" plasma displays and 65" LCD displays
- There are pan-tilt-zoom HD cameras mounted in the House Chamber that are programmed with a preset to each of the 104 representatives' locations
- A control system also is set up in the House Chamber to allow for audio and microphone selection from each of the representatives' area
