

Project Profile

Oklahoma State University - Boone Pickens Stadium
Stillwater, OK

System Features

The newly renovated and expanded 60,000 seat Boone Pickens Football Stadium features a main bowl loudspeaker system.

- Powered line array speaker systems were installed at the end zone location to provide high output sound reinforcement to the entire stadium seating
- Long throw parabolic loudspeaker systems were also installed for optimal PA announcer intelligibility to the most distant seat locations
- Down fill and side fill speakers were provided for near field sound reinforcement
- Sound system functionality is controllable via computer
