

Project Profile

Research Now
Dallas, TX

System Features

Research Now is a leading global online sampling and data collection company that features the latest technology for communicating, presenting and teaching in areas such as its corporate conference and training rooms.

- The executive boardroom and main conference rooms consist of HD, 1080p projection systems with widescreens, HDMI and VGA connectivity, and a touchpanel control system
- The training rooms contain widescreen format video projection systems, wireless microphone systems, distributed audio, as well as touchpanel control systems
- Each of the breakout meeting rooms contain a single, wall-mounted, large format plasma display that mirrors the connectivity as the main conference rooms and the display in employee lounge has connections for a video gaming console or DVD player
