

Project Profile

Robson Performing Arts Center
Claremore, OK

System Features

The new facility serves the community and promotes arts education for the students of the Claremore School District.

- The main theater includes left, center, and right speaker clusters, front fill speakers, delay speakers, and 70 distributed speakers throughout
- Multiple DSP processors and power amplifiers provide performance sound reinforcement to 107 speakers throughout the facility
- The theater video system consists of 2 HD video projection systems with numerous points of connectivity for presentation functionality along with a television distribution system for in-house video production displays
