## System Features

The Center for New Media is a 140,000-square-foot facility that is home to the college's School of Arts, Communication and New Media programs. Designed to be a hub for creativity and artistic exploration, it houses the latest broadcast and AV systems.

- The TV control room includes a large format live production switching system with character generation and processing
- The TV studio has HD broadcast video camera systems, teleprompters, and intercom systems
- The server room houses a 144x144 HD routing system and the audio production room includes a 48-channel SSL mixing console
