

Project Profile

U.S. House of Representatives - Capitol Visitor Center
Washington, D.C.

System Features

Beyond the public area of the Capitol Visitor Center, the House of Representatives hearing, meeting and specialty rooms utilize modern AV technology.

- House of Representatives TV studio production and press audio feed system
- Personal interactive LDC touch screens provide up close viewing of various feeds as determined by the system administrator
- Personal stations utilize mix-minus system for microphone and loudspeaker
- Artfully concealed audio systems feature infrared and inductive loop assisted listening systems
- Portable plasma screens to display witness testimony
