

Project Profile

Wynn/Encore, Switch Restaurant
Las Vegas, NV

System Features

The walls, ceiling, and music in the restaurant change appearance approximately three times during a normal dinner to create a new dining environment.

- High performance audio system, including loudspeakers and subwoofers with indoor/outdoor capabilities project dramatic sound during each transformation
- Touchpanel control system and handheld WiFi touchpanel controls entire system
- All AV systems and show performances are monitored by seven high resolution video displays fed by several surveillance cameras
