

# Project Profile

Armstrong Auditorium  
Edmond, OK

## System Features

From orchestras to ballets, this 42,000-square-foot performing arts center is ready for anything. Featuring the latest in audio, video and theatrical lighting systems in the main auditorium, balcony, lobby, and other supporting spaces.

- The audio system consists of loudspeakers with subwoofers, delay and front fills as well as distributed ceiling speakers in the dressing rooms, lobby and rear of house
- The video system includes a video production switching system, HD video projection system, an in-house cable TV distribution system, and a touchpanel remote control
- The theatrical lighting includes network based performance and house dimming systems along with numerous house and stage lighting control stations
