## System Features

Parkland Hospital is one of the 50 largest hospitals in the U.S. and has the unique distinction of delivering more infants under one roof than any other hospital in the nation. Their newest \$1.27 billion facility, with the latest in AV technology, has the distinction of being the largest hospital construction project in North America to be completed all in one phase. Ford AV was involved during the design phase to find the right solution that provided flexibility and versatility for each room while keeping them user-friendly.

- 100+ meeting and conference rooms, dining area, waiting rooms, lobbies and chapel
- Crestron control center and touch panels
- Cisco video conferencing
- Large NanoLumens direct view LED display in cafeteria
