System Features

With a 240,000 SF campus, 1,500+ employees and 95 meeting rooms, RealPage sought a simple, automated and standardized approach to their AV technology.

- Touch-screen displays provide Wayfinding capabilities, enabling employees to find meeting rooms, offices and other employees
- Conference rooms are scheduled with touch-screen panels linked to Outlook
- Meeting room occupancy sensor detects if a room is occupied and automatically cancels a scheduled meeting after fifteen minutes of inactivity
- Executive board room is equipped with video wall and video conferencing
- Classrooms feature two 75" HD displays and in-ceiling, 2-way speakers
