

# zoomrooms

Zoom Room Certified Integration Partner

Zoom Rooms make communication with teams, customers, and partners easier and more efficient. Ford AV offers professional integration services for designing and installing Zoom Rooms at your facility, ensuring that professional quality audio and video are being utilized so everyone on the call can see and hear you clearly.

**HD VIDEO & AUDIO**

**WIRELESS SHARING**

**ONE TOUCH TO START MEETINGS**

**logitech**

Logitech offers a wide range of conferencing products that are certified for use in Zoom Rooms, perfect for small to medium sized spaces.

**CRESTRON**

Crestron provides native integration with Zoom Rooms, allowing lights, shades, video routing and system power to be controlled directly from a touch panel.

**SHURE**

If you don't like seeing the conference room mics on the table, Shure's new array microphone can clearly pick up participants from overhead while maintaining aesthetics in your meeting space.
