

Project Profile

Limelight Hotel
Snowmass Village, CO

System Features

The Aspen Skiing Company developed a 99-room exclusive property in the heart of Snowmass Village. The property's 99 rooms are complimented by a lobby lounge, meeting and event spaces with integrated AV technology.

- Guest reception area features a 3X2 video wall, which streams information for guests including digital signage and views from atop Aspen Snowmass
- Conference rooms are equipped with projector, screen, automatic lift, wireless microphones, ceiling mounted speakers and partition sensor
- Private dining area includes HD display and ceiling mounted speakers
- Guest rooms each include a wall-mounted HD display
- Pool area provides music entertainment and announcements using weather-resistant speakers
