

Project Profile

Fannie Mae
Washington, D.C.

System Features

Fannie Mae, the mortgage financing giant, relocated their Washington, D.C. headquarters from Cleveland Park to the Midtown Center development at 15th and L Street, NW. The brand new building required best in class workplace technology.

- Town Hall area features a 3x3 video wall, column array speakers, 4K PTZ cameras, and a wireless control panel
- Executive Conference Room utilizes a 98" 4K display, ceiling-mounted microphones, speakers, and a dual-camera video conference system
- Emergency Operations Center includes narrow-bezel displays, PTZ cameras, and wireless content sharing capabilities
- Campus uses 400+ displays for wayfinding, IP TV and collaboration spaces
