System Features

With over 20 million US subscribers, Hulu's growth necessitated a new location with a network operations center (NOC), testing center and new conference/huddle rooms.

- NOC features a video wall comprised of 12 55" displays and a digital processor capable of delivering 12 separate streaming channels at once
- Ceiling array microphones provide an unobtrusive solution to allow participants to be heard while speaking in a normal tone of voice
- Conference rooms and huddle rooms enable video conferencing capabilities with HD displays and PTZ cameras
- Conference rooms are scheduled with touch screen panels and software
- Divisible training room uses 2 projectors and accompanying screens
