

Project Profile

Insperty
Kingwood, Texas

System Features

Insperty has grown to become one of the nation's top HR solution providers, requiring a new 10-story building with state-of-the-art technology at their HQ complex.

- Training & Meeting Rooms | Four combinable rooms, each containing a 12' video wall, 4K robotic cameras, web-conferencing, ceiling-mounted mic array, integrated control, all tied to a master control room for recording, broadcast, and streaming
- Executive Board Room | 10' direct-view .9mm LED display, three robotic 4K auto-tracking cameras, web-conferencing, individual table mics, Voice Lift system, and integrated control
- Broadcast Studio | Two studio 4K cameras, three 4K robotic cameras, teleprompters, 20' video wall, wireless mics and IFB, video switcher, production intercom, lighting fixtures, grid, and controller
