

Project Profile

Meals on Wheels
Tulsa, OK

System Features

Meals on Wheels of Metro Tulsa provides nutritious meals, wellness checks, and caring contact to elderly and homebound individuals in the Tulsa area. Meals on Wheels constructed a new facility with expanded capacity, including technology upgrades, to meet increased demand.

- Training Room | PTZ cameras offer visual reinforcement, archive recordings, online streaming of training events, and laser-based video projection
- Common Space | Digital Signage provides message-agile communication to vendors, volunteers, and staff
- Other systems include Video Wall, Video Conferencing AV Solutions, Sound Masking, CCTV/Surveillance, Access Control, IT Network, Wireless Access Points, and Structured Cabling
