System Features

Oracle, one of the world's largest software companies, constructed a 565,000 SF campus outside of downtown Austin and sought an AV solution that provided cutting-edge technology and simplified collaboration with their other offices.

- 106 LED HDR panels with 2.5mm pixel pitch form a 32' wide video wall in the main lobby
- 98" UHD 4K display, in-ceiling loudspeakers and 4K digital media switcher in Customer Visit Center conference rooms
- Ceiling array microphones adjust to participant's voice to ensure better sound quality
- 75" and 65" UHD 4K displays, telepresence camera and collaboration software in the Executive Suite for meetings and video conferencing
- 55" displays provide digital signage in 100 locations throughout campus
