

Project Profile

Paycom Center
Oklahoma City, OK

System Features

Home of Oklahoma City's NBA team, the Paycom Center houses modern AV equipment in major facility areas, including main halls, entrances, and club areas.

- Concourse features 3X1 digital signage displays visible in both directions
- Arena houses multiple video walls and more than 160 LCD panels with independent control
- Northeast entrance includes 18' wide curved screen with dual projectors and a 27' diameter video cylinder with 360° seamless projection
- Digital signage management system allows officials to generate content for all displays as well as the ability to manage, schedule, distribute and track content
