## System Features

As the largest food distribution company in the world, Sysco Corporation operates more than 170 facilities throughout North America. As their operations network continues to expand, so does the need for teleconferencing capabilities.

- Town Hall area equipped with five HD projectors and screen displays
- Touch-screen control system designed to operate video, sound and lighting equipment
- HD video camera package records to memory card or live-stream
- Tablet with app integration controls systems and equipment remotely
- HD displays in communal areas broadcast menus and messages
- Dividing curtain system with blackout material isolates areas in Town Hall space
