

Project Profile

Texas A&M University ILSQ Building
College Station, Texas

System Features

The new ILSQ building houses more than 30 labs and interdisciplinary studio spaces meant to enhance science, art, and architecture on the Texas A&M campus.

- **Sound System** | 2-way pendant speakers, wireless microphone systems, and assisted listening systems provide students and professors with the optimal listening experience
- **Video System** | Flat panel displays with wireless video presentation, PTZ cameras, and lecture capture systems were installed in all design & digital studios, chemistry labs, and collaboration study spaces
- **Integrated Control System** | 10" wired touch panels provide enhanced control of displays, projectors, lecture capture, PTZ cameras, and audio systems
