

Project Profile

Texas Children's Hospital - Jan and Dan Duncan Neurological Research Institute
Houston, TX

System Features

The Jan and Dan Duncan Neurological Research Institute at Texas Children's Hospital is a one-of-a-kind research facility devoted to neurological diseases. Facility updates include AV technology upgrades for greater image detail and collaboration.

- Auditorium features a 24' x 13.5' direct view LED video wall, 4K displays, distributed speakers, PTZ cameras and presentation system
- Large conference room includes retractable 4K projector, 147" diagonal 4K screen, ceiling-mounted loudspeakers and touchpanel control system
- Medium conference room utilizes a 65" touchscreen display, wireless presentation system and touchscreen control system
- Lounge and corridors use 65" 4K displays for digital signage and wayfinding
