

Project Profile

University of Tennessee - Institute for Public Service
Nashville, TN

System Features

The Institute for Public Service spreads expertise to both governments and industries across Tennessee. To further the mission and vision, the institution customized and upgraded space to train its students.

- Breakout Rooms | 4K displays paired with sound, video collaboration, and integrated controls for smaller meeting spaces
- Conference Room | Room Scheduling, 4K panel display, sound, PTZ video collaboration, microphones, and integrated touch panel controls
- Meeting Rooms | Utilized for larger meetings with projection systems, sound, video collaboration, 4K displays, microphones, and integrated touch panel controls
