

Project Profile

UT Southwestern Medical Center Pediatric Clinic
Dallas, TX

System Features

The UT Southwestern Department of Pediatrics is one of the largest in Texas with more than 300 physicians in 17 academic divisions. The Children's Health at the Plano, Texas campus is growing, requiring the latest advancements to their AV technology.

- Lobby Video Wall | A 14' wide 2.4mm pixel pitch, direct-view LED display uses over thirty-five panels and 3D motion sensing cameras to create an interactive experience to delight both children and adults
- Conference Room | Video Conferencing capabilities are established with boardroom display and HD video conferencing camera
- Digital Signage | Multiple HD displays inform and entertain patients and their families in the waiting areas
