

Project Profile

University of Hawaii - Academy of Creative Media
Honolulu, HI

System Features

The University of Hawaii constructed a film school as part of its Academy for Creative Media. Located on the West Oahu campus, the facility features state-of-the-art production and editing systems that make it the centerpiece of the campus.

- Screening Room | Dolby Atmos Sound Stage and a dual-masking motorized front projection screen, sized to accommodate a wide range of aspects for film screening, mixing, and presentations
- Foley Studio and Control | Post-production audio mixing with automated dialogue replacement capabilities enhanced by audiovisual presentation technologies
- Lobby | Direct view LED video wall with laptop connectivity and wireless presentation system allowing users to share content from their mobile devices
