System Features

Wellshire Church serves the community of Wellshire in Denver, CO through outreach and service. Their use of creative arts to convey their message of hope uses a high level of technology to impact their congregation.

- Sanctuary features a video display upgrade with two 102" x 181" direct-view LED wall systems flanking the chancel area to provide congregants with an enhanced viewing experience
- The video production system includes five PTZ cameras with cabling to allow camera sources to be viewed over an uncompressed video signal for streaming purposes
- Five confidence monitors placed throughout the sanctuary displaying customer generated content to elevate worship participation
