System Features

Jack Yates High School provides students a modern environment to learn about audio and video production. The school district partnered with Ford to design and install multiple rooms on campus.

- Large auditorium utilizes 13,000 lumen projector with 22.5' retractable screen, speakers, PTZ cameras and control console
- TV production suite includes four broadcast quality HD cameras with teleprompters, HD display, portable green screen and production intercom system
- Audio production studio utilizes four studio microphones, headphone mounts, in-ceiling grid video lights and HD display
- Recording studio includes 2" thick acoustic panels and isolation booths
- Lobby features a 3x2 video wall and control system
