# Project Profile

Library of Congress Treasures Gallery
Washington, D.C.

System Features

The Treasures Gallery at the Library of Congress comes to life with high-tech AV throughout the immaculate space, enhancing the visitor learning experience.

- **Window Projections** | Features ten DLP 4K projectors, bespoke projection surfaces, and strategically placed speakers for an immersive audiovisual experience
- **Home Movie Collection** | A multi-window installation using show control and media servers to showcase films from the Library's home movie collection
- **Collections Table** | This focal point highlights objects, videos, and stories from the Library's collection using multiple interactive displays and personal listening stations
