

Project Profile

Chisholm Trail Heritage Museum
Cuero, TX

System Features

The Chisholm Trail Museum sits along what was once the world's most significant cattle trail, preserving the legacy of America's early pioneers. The user-friendly AV system enhances each guest's visit by providing interactive and immersive experiences.

- **Sound System** | The theater houses a powerful surround sound speaker system and 3500 ANSI Lumens projector that displays a realistic movie about life on the Chisholm Trail onto a specially treated wall
- **Video System** | Interactive touchscreen displays installed near the Chuck Wagon exhibit allow museum patrons to choose from several different frontier meal recipes to be printed in the Gift Shop
