

Project Profile

Empower Field at Mile High - Bronco Stadium
Denver, CO

System Features

Filling 1.7 million square feet of space, with a seating capacity of 76,123 and costing over \$364 million, the three-time Super Bowl champion Denver Bronco's have a high-tech home at Empower Field at Mile High.

- **Sound System** | More than 2,000 distributed loudspeakers, driven by 150,000 watts of amplification, extensive use of digital signal processing, and computer based amplifier monitoring allows the system to be easily operated, adjusted, tested, and maintained
- **Video System** | The in-house cable television system provides distribution of local cable TV service, plus the distribution of the external K band and direct broadcast satellite services, to any of the 600 cable TV outlets located throughout the facility
