

Project Profile

NTT Data
Plano, TX

NTT Data, a global leader in IT and business services, completed a modernization of its 12th floor Experience Center in Plano, Texas. This new space serves as a hub for client collaboration, innovation showcases, and demonstrations.

- Seamless video conferencing solution allowing meetings to continue uninterrupted as groups move between the Executive Briefing Center and Innovation Center.
- Immersion Room with a 16' x 9' DVLED video wall and short-throw projection on surrounding walls for fully immersive demonstrations.
- Collaboration areas equipped with large interactive displays, automated presenter tracking, and flexible seating for hands-on engagement.
- Entrance Lobby featuring a curved 8' x 8' video wall and synchronized LED lighting for an impactful visitor experience.
