

Project Profile

Pennsylvania State University - P4 College of Engineering
University Park, PA

System Features

Penn State University's ECoRE Engineering Building combines research labs, teaching spaces, and collaborative environments—raising the bar for integrated technology.

- Hybrid-ready AV with projection, ceiling mics, distributed audio, and unified control across classrooms, offices, and meeting spaces
- ICon Lab featuring a curved rear-projection surface with mirror-mounted projectors for distortion-free, immersive 3D simulation
- Large classrooms with multi-projector teaching zones, breakout displays, and advanced video processing for flexible instruction
- DSP-based audio and coordinated commissioning ensuring consistent performance campus-wide
