

Project Profile

St. Mary's University Simulation Center
San Antonio, TX

System Features

St. Mary's University in San Antonio, Texas, is home to a state-of-the-art Nursing Simulation Center, a dedicated space for high-fidelity clinical training.

- Networked video system with fixed and PTZ cameras capturing every simulation bay, observation room, and instructional space for live viewing and recording review
- Integrated audio system using ceiling microphones and distributed speakers to ensure clear communication, scenario playback, and instructor feedback
- Centralized simulation control and recording platform synchronizing audio, video, and data streams across all clinical environments
- High-fidelity AV infrastructure supporting debriefing sessions and multipurpose instruction with detailed playback, annotation, and flexible content sharing
