

Project Profile

Collin County Courthouse
McKinney, TX

System Features

Ford AV upgraded courtroom technology at the Collin County Courthouse in McKinney, TX, modernizing systems to support remote presentations, increase attendance, and enhance presentation quality and delivery

- Commercial-grade flat panel displays, secure wireless presentation, and structured video distribution supporting digital evidence, real-time content sharing
- Standardized AV modernization across 25 courtrooms with full legacy system removal and deployment of a unified, future-ready technology platform
- Ceiling microphone arrays, distributed loudspeakers, and audio DSP platform delivering consistent speech intelligibility for in-person and remote proceedings
