

Project Profile

Enrique V. Iglesias Conference Center - Inter-American Development Bank (IDB)
Washington, D.C.

System Features

The IDB Group engaged Ford AV to enhance its global event and collaboration hub with advanced AV systems supporting international summits, cultural exchange, and live productions.

- Flagship auditorium spanning three sub-level floors featuring a 4K LED video wall, projection, PTZ cameras, and live production switching supported by an AV-over-IP distribution backbone
- Interconnected meeting environments with multi-display systems enabling real-time content sharing and communication across floors and event spaces
- Upgraded audio systems including wireless microphones, enhanced front-of-house control, and optimized loudspeaker coverage for performances and events
